~~What Is Managerial Accounting and How It Helps Managers?~~

Business managers need accounting information to make sound leadership decisions. Owners and investors hope for profits that may eventually lead to distributions from the business (e.g., “dividends”). Creditors are always concerned about the entity’s ability to repay its obligations. Governmental units need information to tax and regulate.

~~Accounting: Information for Business Decisions—Billie M ...~~

To make a decision, it has to be based on genuine facts and figures. For deciding every level of management, information is crucial. Accounting gives management information regarding the financial position of the business, such as; profit and loss, cost and earnings, liabilities and assets, etc.. That is why the importance of accounting in business is very large.
