William Blake Literary Criticism
William Blake was a social critic of his time, yet his criticism also reflects society of our own time as well. He mainly communicates humanitarian concerns through his "Songs of Innocence and Experience"; which express two opposite states of the human soul, happiness or misery, heaven or hell. "Innocence"; expresses the state of childhood, into which we are all born, a state of free imagination and infinite joy.

The Essay on William Blake Tyger Dare Hand WILLIAM BLAKE 1757-1827 William Blake was a British poet, painter, visionary mystic, and engraver, who illustrated and printed his own books. Born in 1757 he stayed in London nearly his whole life.

The full range of literary traditions comes to life in the Twayne Critical Essays Series. Volume editors have carefully selected critical essays that represent the full spectrum of controversies, trends and methodologies relating to each author's work. Essays include writings from the author's native country and abroad, with interpretations from the time they were writing, through the present day. Each volume includes: -- An introduction providing the reader with a lucid overview of criticism from its beginnings -- illuminating controversies, evaluating approaches and sorting out the schools of thought -- The most influential reviews and the best reprinted scholarly essays -- A section devoted exclusively to reviews and reactions by the subject's contemporaries -- Original essays, new translations and revisions commissioned especially for the series -- Previously unpublished materials such as interviews, lost letters and manuscript fragments -- A bibliography of the subject's writings and interviews -- A name and subject index

William Blake -- some have called him a genius, some have called him a madman... and many have called him both. As the essays in this book show, Blake offers his readers a vision of the world so coherent that even his simplest songs convey rich and exciting meaning, so unified that even his most obscure prophecies present an unexpectedly luminous conception of reality. One of the leaders of the resurgence of interest in Blake, Northrop Frye, has selected essays by distinguished critics which bring the reader into a direct confrontation with the genius of William Blake. -- From publisher's description.

Songs of Innocence and of Experience is an collection of poems by William Blake. It appeared in two phases. A few first copies were printed and illuminated by William Blake himself in 1789; five years later he bound these poems with a set of new poems in a volume titled Songs of Innocence and of Experience Shewing the Two Contrary States of the Human Soul. William Blake was also a painter before the songs of innocence and experience and made paintings such as Oberon, Titania, and Puck dancing with fairies. "Innocence" and "Experience" are definitions of consciousness that rethink Milton's existential-mythic states of "Paradise" and "Fall". Often, interpretations of this collection centre around a mythical dualism, where "Innocence" represents the "unfallen world" and "Experience" represents the "fallen world". Blake categorizes our modes of perception that tend to coordinate with a chronology that would become standard in Romanticism: childhood is a state of protected innocence rather than original sin, but not immune to the fallen world and its institutions. This world sometimes impinges on childhood itself, and in any event becomes known through "experience", a state of being marked by the loss of childhood vitality, by fear and inhibition, by social and political corruption, and by the manifold oppression of Church, State, and the ruling classes. The volume's "Contrary States" are sometimes signalled by patently repeated or contrasted titles: in Innocence, Infant Joy, in Experience, Infant Sorrow; in Innocence, The Lamb, in Experience, The Fly and The Tyger. The stark simplicity of poems such as The Chimney Sweeper and The Little Black Boy display Blake's acute sensibility to the realities of poverty and exploitation that accompanied the "Dark Satanic Mills" of the Industrial Revolution.

This New Casebook contains ten essays written about Blake's poetry since 1970 selected to show the diversity of Blake criticism during the last twenty years and the ways in which contemporary critical theories open up new readings of his work. Essays representative of Marxist, psychoanalytic, deconstructionist, feminist and new historicist criticism are included. David Punter's Introduction places these in the context of recent developments in critical theory and shows how today's student can best engage with Blake's complex and rewarding work.

The Critical Heritage gathers together a large body of critical sources on major figures in literature. Each volume presents contemporary responses to a writer's work, enabling students and researchers to read for themselves, for example, comments on early performances of Shakespeare's plays, or reactions to the first publication of Jane Austen's novels. The carefully selected sources range from landmark essays in the history of criticism to journalism and contemporary opinion, and little published documentary material such as letters and diaries. Significant pieces of criticism from later periods are also included, in order to demonstrate the fluctuations in an author's reputation. Each volume contains an introduction to the writer's published works, a selected bibliography, and an index of works, authors and subjects. The Collected Critical Heritage set will be available as a set of 68 volumes and the series will also be available in mini sets selected by period (in slipcase boxes) and as individual volumes.
