For top-load washers, a leak from the top could be due to oversudsing or overloading (both of which are easily resolved), whereas a leak from the bottom could suggest an issue with the water pump. For front-load washing machines, a front leak could be caused by a damaged or dirty door seal, but a bottom leak is more likely to be caused by a worn drum seal.

Washing Machine Troubleshooting | GE Appliances Factory—

Front load washers are energy efficient, offer powerful wash cycles, and they can be stacked with one of the best dryers, making them ideal if you're short on space. Admittedly, you will normally pay more upfront for a front load washer than you would with one of the best top load washing machines, however, front load washers are normally cheaper to run and use less water too.
