Caroline M. Barron is the world's leading authority on the history of medieval London. For half a century she has investigated London's role as medieval England's political, cultural, and commercial capital, together with the urban landscape and the social, occupational, and religious cultures that shaped the lives of its inhabitants. This collection of eighteen papers focuses on four themes: crown and city; parish, church, and religious culture; the people of medieval London; and the city's intellectual and cultural world. They represent essential reading on the history of one of the world's greatest cities by its foremost scholar.

You'll want to scream, but you'll be gagged. You'll want to cry, but you'll be blindfolded. You'll want to run away, but you'll be tied up. You'll have no way of begging me, I'll do what I want with you. Sexual obsession, domination and extreme lust – Submission is the story of a young married Parisian lawyer who is drawn into a sado-masochistic relationship. A handsome stranger she meets in the courts issues her with a series of instructions which she finds herself compelled to follow. As the violence of their encounters escalates, it becomes a dangerous addiction that she can't break. But how far can she go and how much of her life will she risk in the process? Based on the author's own experiences, this astonishing book sent shockwaves through the French establishment.

The popularity of The Seven Deadly Sins dates back to the 4th Century. They enjoyed tremendous notoriety during the period we call the Middle Ages. While the popular assortment of sins is not directly from scripture, they have been the subject of many a sermon, lecture, writing and art. In his book The Seven Deadly Sins: And Why We Love Them, Steinbacher examines each in detail. He gives examples of how they effect us and how we conduct ourselves in this world. Included in this book is Steinbacher's essay, An Angel In My Garden.

For more than a century, scientists have raced to unravel the human family tree and have grappled with its complications. Now, with an astonishing new discovery, everything we thought we knew about primate origins could change. Lying inside a high-security vault, deep within the heart of one of the world's leading natural history museums, is the scientific find of a lifetime - a perfectly fossilized early primate, older than the previously most famous primate fossil, Lucy, by forty-four million years. A secret until now, the fossil - "Ida" to theresearchers who have painstakingly verified her provenance - is the most complete primate fossil ever found. Forty-seven million years

old, Ida rewrites what we've assumed about the earliest primate origins. Her completeness is unparalleled - so much of what we understand about evolution comes from partial fossils and even single bones, but Ida's fossilization offers much more than that, from a haunting "skin shadow" to her stomach contents. And, remarkably, knowledge of her discovery and existence almost never saw the light of day. With exclusive access to the first scientist to study her, the award-winning science writer Colin Tudge tells the history of Ida and her place in the world. A magnificent, cutting-edge scientific detective story followed her discovery, and *The Link* offers a wide-ranging investigation into Ida and our earliest origins. At the same time, it opens a stunningly evocative window into our past and changes what we know about primate evolution and, ultimately, our own.

The Secretary-General of the United Nations is a unique figure in world politics. At once civil servant, the world's diplomat, lackey of the UN Security Council, and commander-in-chief of up to a hundred thousand peacekeepers, he or she depends on states for both the legitimacy and resources that enable the United Nations to function. The tension between these roles - of being secretary or general - has challenged every incumbent. This book brings together the insights of senior UN staff, diplomats and scholars to examine the normative and political factors that shape this unique office with particular emphasis on how it has evolved in response to changing circumstances such as globalization and the onset of the 'war on terror'. The difficulties experienced by each Secretary-General reflect the profound ambivalence of states towards entrusting their security, interests or resources to an intergovernmental body.
