Create a MongoDB cluster that will grow to meet the needs of your application. With this short and concise book, you'll get guidelines for setting up and using clusters to store a large volume of data, and learn how to access the data efficiently. In the process, you'll understand how to make your application work with a distributed database system. Scaling MongoDB will help you: Set up a MongoDB cluster through sharding Work with a cluster to query and update data Operate, monitor, and backup your cluster Plan your application to deal with outages By following the advice in this book, you'll be well on your way to building and running an efficient, predictable distributed system using MongoDB.

Bringing together a range of leading academics and experts on social democratic politics and policy, *Why the Left Loses* offers an international, comparative view of the changing political landscape, examining the degree to which the centre-left project is exhausted and is able to renew its message in a neo-liberal age.

The definitive book on steak has never been written-until now "Of all the meats, only one merits its own structure. There is no such place as a lamb house or a pork house, but even a small town can have a steak house." So begins Mark Schatzker's ultimate carnivorous quest. Fed up with one too many mediocre steaks, the intrepid journalist set out to track down, define, and eat the perfect specimen. His journey takes him to all the legendary sites of steak excellence-Texas, France, Scotland, Italy, Japan, Argentina, and Idaho's Pahsimeroi Valley-where he discovers the lunatic lengths steak lovers will go to consume the perfect cut. After contemplating the merits of Black Angus, Kobe, Chianina, and the prehistoric aurochs-a breed revived by the Nazis after four hundred years of extinction-Schatzker adopts his own heifer, fattens her on fruit, acorns, and Persian walnuts, and then grapples with ambivalence when this near-pet appears on his plate. Reminiscent of both Bill Bryson's and Bill Buford's writing, *Steak* is a warm, humorous, and wide-ranging read that introduces a wonderful new travel and food writer to the common table.

A simple off-the-books assignment becomes a race of life and death. Shanice Lawrence has met the perfect man. He's sexy, considerate, and best of all, he loves to read. She's certain she's found the man of her dreams—until she learns the real reason for his appearance in her life. Cruz Cordoba's mission was simple: Get close to Shanice, retrieve the data, and kill anyone who gets in his way—including her. But he didn't anticipate falling for the voluptuous bookstore clerk. Now he has to decide what's more important—the mission, or the woman. This is part 1 of 2 and ends on a cliffhanger.

In the latest in this New York Times bestselling series, San Francisco book-restoration expert Brooklyn Wainwright investigates a mysterious spy novel linked to a string of murders... Newlyweds Brooklyn and Derek are enjoying the final days of their honeymoon in Paris. As they're browsing the book stalls along the Seine, Brooklyn finds the perfect gift for Derek, a first edition James Bond novel, *The Spy Who Loved Me*. When they bump into Ned, an old friend from Derek's spy days, Brooklyn shows him her latest treasure. Once they're back home in San Francisco, they visit a spy shop Ned mentioned. The owner begs them to let him display the book Brooklyn found in Paris as part of the shop's first anniversary celebration. Before they agree, Derek makes sure the security is up to snuff—turns out, the unassuming book is worth a great deal more than sentimental value. Soon after, Derek is dismayed when he receives a mysterious letter from Paris announcing Ned's death. Then late one night, someone is killed inside the spy shop. Are the murders connected to Brooklyn's rare, pricey book? Is there something even more sinister afoot? Brooklyn and the spy who loves her will have to delve into the darkest parts of Derek's past to unmask an enemy who's been waiting for the chance to destroy everything they hold dear.
