Are current testing practices consistent with the goals of the reform movement in school mathematics? If not, what are the alternatives? How can authentic performance in mathematics be assessed? These and similar questions about tests and their uses have forced those advocating change to examine the way in which mathematical performance data is gathered and used in American schools. This book provides recent views on the issues surrounding mathematics tests, such as the need for valid performance data, the implications of the Curriculum and Evaluation Standards for School Mathematics for test development, the identification of valid items and tests in terms of the Standards, the procedures now being used to construct a sample of state assessment tests, gender differences in test taking, and methods of reporting student achievement.

*This Seventh Edition is filled with authoritative advice on the financial reporting, accounting, and control situations unique to not-for-profit organizations. It contains discussions of the accounting and reporting guidelines for different types of organizations, complete guidance on tax and compliance reporting requirements, illustrated explanations of various types of acceptable financial statements, and much more! -Publisher's Website.

Fifty all-new essays that got their authors into Harvard Medical School, including MCAT scores, showing what worked, what didn ' t, and how you can do it too. Competition to get into the nation ' s top medical schools has never been more intense. Harvard Medical School in particular draws thousands of elite applicants from around the world. As admissions departments become increasingly selective, even the best and brightest need an edge. Writing a personal statement is a daunting part of the application process. In less than 5,300 characters, applicants must weave together experiences and passions into a memorable narrative to set them apart from thousands of other applicants. While there is no magic formula for writing the perfect essay, picking up this book will put them on the right track. 50 Successful Harvard Medical School Essays is the first in a new line of books published by the Staff of the Harvard Crimson. It includes fifty standout essays from students who successfully secured a spot at Harvard Medical School. Each student has a unique set of experiences that led them to medicine. Each essay includes analysis by Crimson editors on essay qualities and techniques that worked, so readers can apply them to their own writing. This book will aid applicants in composing essays that reveal their passion for medicine and the discipline they will bring to this demanding program and profession. It will give them the extra help they need to get into the best medical school programs in the world.

First published in 2002. Routledge is an imprint of Taylor & Francis, an informa company.
