There has been a marked change in examination strategy over the last five years; EMQs (extended matching questions) are popular with tutors and students alike as they present a more realistic view of a student's ability to apply his or her knowledge in a clinical situation. The new edition of MCQs in Physiology has been subject to a complete overhaul to become MCQs and EMQs in Physiology. This reflects the current methods of examination techniques and will provide the student with a complete revision resource book. Packed with MCQs and EMQs along with clear and simple explanations of each answer, this book covers all the main physiological systems. The questions stretch from basic to applied and interpretative and are written with the modern integrated syllabus firmly in mind. Presented alongside other core revision books such as EMQs in Clinical Medicine this book will soon be seen as a must-have for any medic's shelf.

This comprehensive revision aid is an invaluable learning and reference tool for all Anatomy and Physiology students, containing everything you need to help pass your exams. Having been fully revised in line with the latest specifications for all major awarding bodies, this

popular text book is being used by students all over the world in countries such as Britain, Ireland, Europe, Singapore, South Africa, Australia and USA. It is suitable for any student training to become: A Massage Therapist, Beauty Therapist, Reflexologist, Aromatherapist, Health Care Assistant, 1st Year Nursing, Ambulance Technician, Qualified Practitioner and Tutor. There are 13 chapters in total, with 1,160 Multiple Choice Questions. Each question has 4 possible answers with an answer grid at the end of each chapter. Also found inside are 58 crosswords with hundreds of clues, covering all systems of the body. These crosswords are designed to be interactive and fun and should be repeated several times until your confidence grows. Anatomy & Physiology Revision Questions can be used either in class or as a separate self study guide. Beauty & Holistic Studies has been established since 2007 and in that time, has become one of the beauty industries leading providers in education resources. With subjects being added on a regular basis, it has helped over 30,000 students worldwide to gain success in their exams. Beauty & Holistic Studies was created by Kate Tierney, an experienced beauty and complementary tutor who understands the demands placed on today's busy students. As well as having jobs and families, students must attend a rigorous class schedule, one that includes intense practical and theory based subjects. With all of these demands, there is hardly any time left to follow a proper study program. With this in mind, these revision guides have been designed to provide students with the necessary knowledge and tools to pass their exams with ease. Students are able to practice the skills they have learned in college, all from the comfort of their own homes.

Extensively revised and updated, this fourth edition of Physiology at a Glance continues to

provide a thorough introduction to human physiology, covering a wealth of topics in a comprehensive yet succinct manner. This concise guide breaks this often complex subject down into its core components, dealing with structures of the body from the cellular level to composite systems. New to this edition are three chapters on cell signalling, thermoregulation, and altitude and aerospace physiology, as well as a glossary of terms to aid medical, dental, health science and biomedical students at all levels of their training. Featuring clear, full-colour illustrations, memorable data tables, and easy-to-read text, Physiology at a Glance is ideal as both a revision guide and as a resource to assist basic understanding of key concepts.
