in town will last very long. After all, they never do. Most teachers who come to their one-room schoolhouse in remote Alaska leave at the first smell of fish, claiming that life there is just too hard. But Miss Agnes is different: she doesn't get frustrated with her students, and finds new ways to teach them to read and write. She even takes a special interest in Fred's sister, Bokko, who has never come to school before because she is deaf. For the first time, Fred, Bokko, and their classmates begin to enjoy their lessons—but will Miss Agnes be like all the rest and leave as quickly as she came?

"An inspiring true story of a boy genius.

"Plowing a potato field in 1920, a 14-year-old farm boy from Idaho saw in the parallel rows of overturned earth a way to make pictures fly through the air. This boy was not a magician; he was a scientific genius and just eight years later he made his brainstorm in the potato field a reality by transmitting the world's first television image. This fascinating picture-book biography of Philo Farnsworth covers his early interest in machines and electricity, leading up to how he put it all together in
