In his book, *The Pursuit of Perfect*, author Tal Ben-Shahar, Ph.D. narrows in on this topic with a look at the barriers constructed by perfectionism in setting, achieving and enjoying personal goals. His antidote to perfectionism is "optimalism," a term whose life was no doubt conceived from early researchers' description of the concept of positive psychology as the "scientific study of optimal human functioning."

DO YOU WANT YOUR LIFE TO BE PERFECT? We're all laboring under our own and society's expectations to be perfect in every way—to look younger, to make more money, to be happy all the time. But according to Tal Ben-Shahar, the New York Times bestselling author of *Happier*, the pursuit of perfect may actually be the number-one internal obstacle to finding happiness. OR DO YOU WANT TO BE HAPPY? Applying cutting-edge research in the field of positive psychology—the scientific principles taught in his wildly popular course at Harvard University—Ben-Shahar takes us off the impossible pursuit of perfection and directs us to the way to happiness, richness, and true fulfillment. He shows us the freedom derived from not trying to do it all right all the time and the real lessons that failure and painful emotions can teach us. YOU DON'T HAVE TO BE PERFECT TO BE PERFECTLY HAPPY! In *The Pursuit of Perfect*, Tal Ben-Shahar offers an optimal way of thinking about failure and success—and the very way we live. He provides exercises for self-reflection, meditations, and “Time-Ins” to help you rediscover what you really want out of life. Praise for Tal Ben-Shahar's *Happier*: “This fine book shimmers with a rare brand of good sense that is embedded in scientific knowledge about how to increase happiness. It is easy to see how this is the backbone of the most popular course at Harvard today.” —Martin E. P. Seligman, author of *Authentic Happiness*

In 1998 Thomas Hales dramatically announced the solution of a problem that has long teased eminent mathematicians: what is the densest possible arrangement of identical spheres? *The Pursuit of Perfect Packing* recounts the story of this problem and many others that have to do with packing things together. The examples are taken from mathematics, phy

Can You Learn to Be Happy? YES . . . according to the teacher of Harvard University's most popular and life-changing course. One out of every five Harvard students has lined up to hear Tal Ben-Shahar's insightful and inspiring lectures on that ever-elusive state: HAPPINESS. HOW? Grounded in the revolutionary “positive psychology” movement, Ben-Shahar ingeniously combines scientific studies, scholarly research, self-help advice, and spiritual enlightenment. He weaves them together into a set of principles that you can apply to your daily life. Once you open your heart and mind to *Happier*'s thoughts, you will feel more fulfilled, more connected . . . and, yes, HAPPIER. “Dr. Ben-Shahar, one of the most popular teachers in Harvard's recent history, has written a personal, informed, and highly enjoyable primer on how to become happier. It would be wise to take his advice.” --Ellen J. Langer, author of *Mindfulness* and *On Becoming an Artist* “This fine book shimmers with a rare brand of good sense that is imbedded in scientific knowledge about how to increase happiness. It is easy to see how this is the backbone of the most popular course at Harvard today.” --Martin E. P. Seligman, author of *Authentic Happiness*

How the greatest thinkers in finance changed the field and how their wisdom can help investors today Is there an ideal portfolio of investment assets, one that perfectly balances risk and reward? We learn about the personal and intellectual journeys of these luminaries—which include six Nobel Laureates and a trailblazer in mutual funds—and their most innovative contributions. In the process, we come to understand how the science of modern investing came to be. Each of these finance greats discusses their idea of a perfect portfolio, offering invaluable insights to today's investors. Inspiring such monikers as the Bond Guru, Wall Street's Wisest Man, and the Wizard of Wharton, these pioneers of investment management provide candid perspectives, both expected and surprising, on a vast array of investment topics—effective diversification, passive versus active investment, security selection and market timing, foreign versus domestic investments, derivative securities, nontraditional assets, irrational investing, and so much more. While the perfect portfolio is ultimately a moving target based on individual age and stage in life, market conditions, and short- and long-term goals, the fundamental principles for success remain constant. Aimed at novice and professional investors alike, *In Pursuit of the Perfect Portfolio* is a compendium of financial wisdom that no market enthusiast will want to be without.

What does it mean to live in a time when medical science can not only cure the human body but also reshape it? How should we as individuals and as a society respond to new drugs and genetic technologies? Sheila and David Rothman address these questions with a singular blend of history and analysis, taking us behind the scenes to explain how scientific research, medical practice, drug company policies, and a quest for peak performance combine to exaggerate potential benefits and minimize risks. They present a fascinating and factual story from the rise of estrogen and testosterone use in the 1920s and 1930s to the frenzy around liposuction and growth hormone to the latest research into the genetics of aging. The Rothmans reveal what happens when physicians view patients' unhappiness and dissatisfaction with their bodies—short stature, thunder thighs, aging—as though they were diseases to be treated. *The Pursuit of Perfection* takes us from the early days of endocrinology (the belief that you are your hormones) to today's frontier of genetic enhancements (the idea that you are your genes). It lays bare the always complicated and sometimes compromised positions of science, medicine, and commerce. This is the book to read before signing on for the latest medical fix.

The difference between flourishing and floundering is 10X. The difference between quantity and quality is a factor of 10. The difference in levels of engagement is exponential. People functioning at the highest level are what the authors call 10x leaders. Research on these leaders consistently brought up five major strengths. This book teaches readers to become a 10x leader using these five key areas, the

SHARP framework. □ Strengths: 10X leaders stop trying to eliminate weaknesses and learn to focus on their strengths □ Health: 10X leaders stop trying to eliminate stress and learn how to integrate periods of restoration □ Absorption: 10X leaders stop waiting for the lightning of focus and creativity to strike and learn how to achieve consistent engagement and presence □ Relationships: 10X leaders stop trying to exert power and control and learn to cultivate healthy relationships through positivity and authenticity □ Purpose: 10X leaders stop grinding out tasks and learn how to find meaning and commitment in everything they do The 10X elixir of peak performance comes not from focusing on just one of these areas, but from learning to light the fire of all five aspects of SHARP and functioning naturally with them on a daily basis. If you just cultivate one or two aspects of leadership skills you are unlikely to succeed. If one of the five isn't taken care of it affects the performance of the whole. But if you focus on all five areas, you will not only be more likely to find what helps you most, you have the best chance of enjoying the synergy of performance multiplication.

A brilliant guide to living a happier life (even if it's not so perfect) Bestselling author Tal Ben-Shahar has done it again. In *Being Happy* (originally published in hardcover as *The Pursuit of Perfect*, 978-0-07160882-4), he gives you not only you the theory but also the tools to help you learn how to accept life as it actually is instead of what you think it should be. With the same technique that made *Happier* such a great success, *Being Happy* shows you how to let go of unrealistic expectations and truly accept your emotions for a more serene life.
