NATIONAL BESTSELLER • The gripping story of Elizabeth Holmes and Theranos—one of the biggest corporate frauds in history—a tale of ambition and hubris set amid the bold promises of Silicon Valley, rigorously reported by the prize-winning journalist. With a new Afterword. "Chilling ... Reads like a thriller ... Carreyrou tells [the Theranos story] virtually to perfection." —The New York Times Book Review In 2014, Theranos founder and CEO Elizabeth

Holmes was widely seen as the next Steve Jobs: a brilliant Stanford dropout whose startup "unicorn" promised to revolutionize the medical industry with its breakthrough device, which performed the whole range of laboratory tests from a single drop of blood. Backed by investors such as Larry Ellison and Tim Draper, Theranos sold shares in a fundraising round that valued the company at more than \$9 billion, putting Holmes's worth at an estimated \$4.5 billion. There was just one problem: The technology didn't work. Erroneous results put patients in danger, leading to misdiagnoses and unnecessary treatments. All the while, Holmes and her partner, Sunny Balwani, worked to silence anyone who voiced misgivings—from journalists to their own employees.

The Challenge Built to Last, the defining management study of the nineties, showed how great companies triumph over time and how long-term sustained performance can be engineered into the DNA of an enterprise from the very beginning. But what about the company that is not born with great DNA? How can good companies, mediocre companies, even bad companies achieve enduring greatness? The Study For years, this question preyed on the mind of Jim Collins. Are there companies that defy gravity and convert long-term mediocrity or worse into long-term superiority? And if so, what are the universal distinguishing characteristics that cause a company to go from good to great? The Standards Using tough benchmarks, Collins and his research team identified a set of elite companies that made the leap to great results and sustained those results for at least fifteen years. How great? After the leap, the good-to-great companies generated cumulative stock returns that beat the general stock market by an average of seven times in fifteen years, better than twice the results delivered by a composite index of the world's greatest companies, including Coca-Cola, Intel, General Electric, and Merck. The Comparisons The research team contrasted the good-to-great companies with a carefully selected set of comparison companies that failed to make the leap from good to great. What was different? Why did one set of companies become truly great performers while the other set remained only good? Over five years, the team analyzed the histories of all twenty-eight companies in the study. After sifting through mountains of data and thousands of pages of interviews, Collins and his crew discovered the key determinants of greatness -- why some companies make the leap and others don't. The Findings The findings of the Good to Great study will surprise many readers and shed light on virtually every area of management strategy and practice. The findings include: Level 5 Leaders: The research team was shocked to discover the type of leadership required to achieve greatness. The Hedgehog Concept (Simplicity within the Three Circles): To go from good to great requires transcending the curse of competence. A Culture of Discipline: When you combine a culture of discipline with an ethic of entrepreneurship, you get the magical alchemy of great results. Technology Accelerators: Good-to-great companies think differently about the role of technology. The Flywheel and the Doom Loop: Those who launch radical change programs and wrenching restructurings will almost certainly fail to make the leap. "Some of the key concepts discerned in the study," comments Jim Collins, "fly in the face of our modern business culture and will, quite frankly, upset some people." Perhaps, but who can afford to ignore these findings?

This Big Kindergarten Workbook combines popular 32-page School Zone workbooks into one convenient 320-page volume. Child-friendly exercises and full-color illustrations make learning fun. Use Big Workbooks to reinforce or review grade-level skills or prepare for the upcoming school year. Contents include: Numbers 1-12, Alphabet, Hidden Pictures, Thinking Skills, Transition Math, Reading Readiness Book 1, and Reading Readiness Book 2, Zoo Scholar, Following Directions, and Colors. (Ages 4-5)

It's 1952 and the Scott family has just moved from Los Angeles to London. Here, fourteen-year-old Janie meets a mysterious apothecary and his son, Benjamin Burrows - a fascinating boy who's not afraid to stand up to authority and dreams of becoming a spy. When Benjamin's father is kidnapped, Janie and Benjamin must uncover the secrets of the apothecary's sacred book, the Pharmacopoeia, in order to find him, all while keeping it out of the hands of their enemies - Russian spies in possession of nuclear weapons. Discovering and testing potions they never believed could exist, Janie and Benjamin embark on a dangerous race to save the apothecary and prevent impending disaster. Together with Ian Schoenherr's breathtaking illustrations, this is a truly stunning package from cover to cover.

A heart-rending but uplifting story of the human spirit's ability to prevail. From the day he is five-years-old and dropped off at his foster home of the next eleven years, Stephen is mentally and physically tortured. No one in the system can help him. No one can tell him if he has a family. No one can tell him why, with obvious African-American features, he has the last name of Klakowicz. Along the way, a single faint light comes only from a neighbor's small acts of kindness and caring—and a box of books. From one of those books he learns that he has to fight in any way he can—for victory is in the battle. His victory is to excel in school. Against all odds, the author succeeded. He attended college, graduated, became a successful corporate executive, and married a wonderful woman with whom he established a loving family of his own. Through it, he dug voraciously through records and files and found his history, his birth family—and the ultimate disappointment as some family members embrace him, but others reject him. Readers won't be the same after reading this powerful story. They will share in the hurts and despair but also in the triumph against daunting obstacles. They will share this story with their family, with their friends, with their neighbors.

Super heroes unite! Join the most powerful heroes in the Marvel Universe as they team up to protect the world from the most dangerous foes imaginable.

With special appearances from some of your favorite Marvel characters including Captain Marvel, Captain America, and Guardians of the Galaxy, each action-packed story is ideal for reading aloud in just five minutes!

Entering the crazy world of couponing can literally change your life and your lifestyle! You'll start making ends meet, pay off your debt, create a financial cushion, and feel freer and happier than you've felt in years, maybe decades. That's living rich with coupons! Use the tools you get from this book to build your superpowers. Even Wonder Woman needs her indestructible bracelets, and you're about to receive yours. It doesn't matter if you make \$15,000 a year or \$250,000 a year--everyone needs a budget they can stick to and follow. Cindy helps you to uncover every savings opportunity at your local stores. You're going to find out exactly what you need to do to save and how to use those coupons correctly.

Kingsley Amis was one of the great masters of comic prose, and no subject was dearer to him than the art and practice of imbibing. This new volume brings together the best of his three out-of-print works on the subject: Kingsley Amis in Drink, Everyday Drinking and How's Your Glass? In one handsome package, the book covers a full shelf of the master's riotous and erudite thoughts on the drinking arts: Along with a series of well-tested recipes (including a cocktail called the Lucky Jim) are Amis's musings on The Hangover, The Boozing Man's Diet, The Mean Sod's Guide, and (presumably as a matter of speculation) How Not to Get Drunk - all leavened with fun quizzes on the making and drinking of alcohol all over the world. Mixing practical know-how and hilarious opinionation, this is a delightful cocktail of wry humour and distilled knowledge, served by one of our great gimlet wits.
